

Michigan Home Visiting Conference

August 5–7, 2014

Adoba Hotel, Dearborn

Sponsored by the

Michigan Home Visiting Initiative
Michigan Department of Community Health

The August 2014 Michigan Home Visiting Conference is a conference for home visitors, administrators and parents in Michigan's home visiting programs. The purpose of the conference is to increase knowledge of home visiting models, ways to enhance home visiting practices to specifically address family needs, and to increase knowledge and skills on how to use quality improvement methods to achieve change. The conference objectives for participants are to be able to 1) describe the most commonly implemented home visiting models within Michigan, 2) discuss how family experience and trauma can impact very young children in later life, and 3) discuss the impact of health equity, health pathways, early programming, and cumulative stress on women's and families' health.

CONTINUING EDUCATION HOURS: Application has been made to provide continuing education for nurses (approved), social workers (approved), and teachers (approved). For information about obtaining continuing education for attending this conference, visit the Michigan Home Visiting Initiative website, www.michigan.gov/homevisiting, and download and read the following two documents: 1) 2014 Michigan Home Visiting Conference Purpose, Objectives and Disclosure, and 2) CE Easy Steps. Please contact Sherri Hines at shines@mphi.org with questions.

CONFERENCE IDENTIFICATION: Conferees are required to wear their name badges to all sessions. Individual badges identify your assigned sessions. Failure to wear your badge may exclude you from a session.

TUESDAY, AUGUST 5, 2014
